Sir,

With reference to your D.O. letter No.L.8951-4 dated 25th June 1934 calling for a report of action taken regarding the contribution by village Panchayets towards Maternity and Child Welfare work, in rural areas, I have the honor to state that my predecessor who attended the meeting in question on 20-2-34 presumably awaited the communication from Government confirming the proceedings and hence no action has so far been taken in the matter. The extract of the proceedings was only received here on 26th June 1934 with your letter under advertance.

Meanwhile, the Revenue Commissioner has also sent copies of General Secretary's letter No.G.8137/Med.258-33-2 dated 6th June 1934 and of its enclosures in the matter of establishing Maternity Homes in rural areas and requested that necessary instructions may be issued to the Sub-Division Officers and Amildars to interest themselves in this work and enlist the sympathies of the village panchayets during their tours (Copy enclosed for ready reference)

I am issuing circular instructions to the Amildars

(a) to select some prominent villages in each taluk and take steps to start such Maternity Homes in them, through the agency of the concerned village panchayets and to send me progress reports of work done, and (b) to induce as many Village Pancha-yets as possible to subscribe to the funds required for

required for Maternity and Child welfare propaganda work in rural areas at the rate one rupee per panchayet.

4. In connection with (b) above, I request to be enlightened as to whom the contributions collected on this account are to be remitted, and whether a Government Order on the lines of Government order No.L.3687-97/V.P.17-33-16 dated 25/27th November 1933 permitting village panchayets to contribute towards the funds of the Red Cross Society is not also necessary in this case authorising the Village Panchayets to contribute for this purpose.

Docket No.C.5150/33-34 dated the 22nd June 1934. from the Revenue Commissioner in Mysore, to the Deputy Commissioner, Hassan District.

In forwarding herewith. a copy of General Secretary's letter No.G. 8139/Md.258-33-2 dated the 6th June 1934 together with copies of its enclosures in the matter of establishing Maternity Homes in rural areas, has the honor to request that necessary instructions may be issued to the Sub Division Officers and Amildars to interest themselves in this work and to enlist the co-operation of the Village Panchayets by explaining to them theadvantages to be derived by having such Homes - individually when they go on tours and also by the issue of necesaary instructions.

2... The action taken in the matter may be reported to this office.

Letter No.G.8139/Med.258-33-2 dated 6th June 1934, from the General Secretary to the Government of His Highness the Maharaja of Mysore, to the Revenue Commissioner in Mysore.

am directed to forward herewith for favour of needful action a copy of letter No.C.256 dated 21st May 1934 from the Senior Surgeon in Mysore together with that of its enclosure in the matter of establishing Maternity Homes in rural areas.

Letter No.C.256 dated 21st May 1934 from the Senior Surgeon in Mysore, to the General Secretary to the Government of His Highness the Maharaja of Mysore.

I have the honour to state that at the instance of the Secretary, Indian Red Cross Society, Mysore State Branch, I have issued an appeal for the establishment of "Maternity Homes" in rural areas. I enclose herein for the information of Government, a copy of memorandum containing the suggestions made by me in this behalf. It will be kindly seen that the object aimed at is to construct small buildings to be utilised for admitting pregnant women and afford better maternity aid in villages It is also proposed that the buildings should be left in charge of the Village Panchayets concerned to be made available for the common use of the villagers. The Midwife working in the nearest dispensary will be summoned to conduct to labours, and it will be possible to demonstrate practically to the villagers the hygienic principles underlying the care of the mother and of the infant.

am of opinion that a beginning should be made at once and the cooperation of the Village Panchayets secured to make the scheme a success I request that the Amildars of every taluk may be advised to interest themselves in the work and move the several Village Panchayets to cooperate with the Red Cross Society in this direction.

A plea for the Establishment of Maternity Homes in Rural Areas.-

It is a well known fact that amongst the contributory causes that are responsible for a large percentage of maternal mortality in rural areas, the insanitary environment in which pregnant women are delivered, plays, a very important part. The typical rural home is, at best, merely a thing of economic expediency and woefully lacks in drainage, impervious flooring, ventilation and light. In the large majority of such homes, cattle find common shelter with human beings and it is no wonder that, under such conditions

under such conditions of life, even the relatively sturdy woman of the country-side should become an easy victim to septic fever or to the insidious effects of un-hygienic surroundings during confinement.

At present, most of the Local Fund Dispensaries in mofussil areas are provided with one or two small in-patient wards. These wards are intended for emergencies and except for occasional use they remain practically idle. Provided there is sufficient local demand for in patient maternity aid, nothing would be easier than to throw open these wards for admitting and attending to labour cases of every description. There is a midwife attached to the Dispensary, whose services may be utilised for conducting labour cases and for the management of the mother and child under the general supervision of the local Sub Asst Surgeon. I am issuing a departmental circular accordingly, but I must repeat that success ultimately depends upon the co-operation of the people. Propagandistic work may very usefully be initiated in this direction by the Red Cross Society.

As regards villages which possess no Government Dispensaries or Wards a similar arrangement has to be instituted. There has, in recent years, been a considerable awakening of the civic sense in villages and if only it receives an impetus and a direction, little or no difficulty would be met with in enlisting active support of the villages for the diversion of a part of the village funds - supplemented, if necessary, by grants from Government, Local Bodies and Red Cross Society - for the construction of what may be termed "Village Maternity Homes". These would rank with, say, the Village Halls as buildings of lasting utility for the people of the village. When constructed, the "Maternity Home" should be provided with the usual equipment - one or two cots, a suitable cradle, a wash-hand stand with basin, some clean linen including towels and a midwifery kit box. The building should be in charge of the Village Panchayets should be available for the common use of the villagers. The Midwife working at the nearest Dispensary could be summoned to conduct the labours. In this way, it would be possible not only to provide for better maternity aid in villages but also to demonstrate practically to the villagers the hygienic principles underlying the care of the mother and of the infant.

A beginning should be made at once; and as a knowledge of the dangers of delivery in insanitary and crowded surroundings becomes well established amongst the inhabitants of rural areas, it may become a common practice for every expectant mother, without any exertion, to seek admission to the "Maternity Home" for her confinement.

Sir,

Acquisition of land out of S.No.192 in Karimanti village, Seringapatam Taluk for providing a cart track to S.No.194.

With reference to your letter No.L.7772/V.P.12-33-130 dated 30th April 1934 enquiring how the providing of a cart-track to a particular piece of land owned by a person can be considered to be a public purpose, I have the honor to state that the Amildar, Seringapatam Taluk, after inspection of the Survey number in question on the 7th instant, reports that there is no means of approach to S.No.194 for cultivation purposes and for conveying manure except through the way now proposed for acquisition in S.No.192 and that there is no convenient level crossing also over the Railway line to the northwest of this number. Besides, even after the proposed acquisition is sanctioned, the owner of the land has to construct a culvert over the halla at his own cost to which he is agreeable.

The yield to Government in the shape of land revenue from this land is Rs.59/- per annum and the land ~~the land~~ is lying banjar since last year owing to the difficulty of approach to it.

2. The Sub Division Officer, French Rocks Sub Division also supports the recommendation of the Amildar and adds that since the acquisition now proposed is for providing access to an agricultural land yielding land revenue to Government, the purpose has to be deemed public and if access is denied, the land is likely to remain fallow and the Government revenue will suffer and besides, the owner will have to be compensated.

SIR,

With reference to your D.O. No. T. 53 of 33-34 dated 19th June 1934 calling for information about the number of Panchayets in the District that have contributed towards the Indian Red Cross Society Fund and the amount contributed by them etc., I have the honour to state that a sum of Rs 577-6-0 was contributed by 508 Village Panchayets in the district during the year 1933-34 and that a sum of Rs 300/- out of these collections was remitted to the Mysore Bank towards the Indian Red Cross Society Fund account as desired by the Secretary of the Association and that out of the balance, a sum of Rs 165-8-0 was placed at the disposal of the District Health Officer for expenditure in connection with the work of the Milk Centre at Shimoga and a sum of Rs 100/- was contributed towards the cost of the construction of the Maternity Home at Agumbe in the Thirthahalli Taluk on 10-2-1934. These contributions have been approved by the Red Cross Association in Mysore Vide copy of the resolution enclosed.

The balance of Rs 11-14-0 is held in Cash Deposit in this office. This amount will also be transferred to the Red Cross Society Fund. The remaining Village Panchayets were not in a position to contribute anything towards the Fund. With regard to the collections for the current year, it can be made only during the months of December and January as the Panchayets have to be consulted again and fresh resol-

-utions

resolutions obtained in the matter of making payments annually.

I may be permitted to add in this connection that many of the panchayets are averse to the above collections being spent outside the District. The state branch of the Indian Red Cross Association however insists that the contributions should be paid to its credit first and suggests that the District Association should make requests for grant for Child Welfare and Maternity work. Under this procedure, it is not likely that the District will get an adequate sum for expenditure in the district itself for Maternity and Child Welfare work. It seems therefore necessary that some arrangements should be made by which the major portion of the contributions should be available for expenditure locally.

One more important question that has been raised is the provision of midwives in rural parts. Government entirely sympathise with that demand and they wish that they had funds to provide for more midwives. It is true, no doubt, as the Senior Surgeon said, that it is the main function of the District Boards but as we know they themselves have not got any extra funds. Now a scheme has been devised by the Red Cross Society. (i.e., by the State Branch of the Society working under Sir Charles Todhunter) of providing midwives for every taluk in the State. The scheme is that at least one midwife or nurse should be stationed in each taluk and that she may be called upon for help wherever it is needed in the taluk. There also the question of cost comes in; but the proposal is that the cooperation of the General public should be enlisted for the purpose of meeting the fairly small cost that has to be incurred in this connection. It is proposed to approach the Village Panchayets and ask them to contribute an annual sum of a rupee or so for this purpose. This is not a very great burden on the village panchayets but the relief that they will get for the small money they spend will be very great. It is hoped that all the hon'ble members of this House who are in touch with these village panchayets would encourage them to incu this very small but very very useful expenditure for the health and sanitation of the area entrusted to their charge. We shall make the same appeal to the municipalities also. We are not asking for very much but a small annual contribution might be made by the municipality to the Red Cross funds to enable them to carry out the scheme in full; and the District Boards also might, just as they do for various other public and charitable purposes, i.e., just as they make donations to number of public and charitable purposes, in the same way, they may set apart a small sum for the relief of the suffering which is catered for by the Red Cross Society. So, I would make a very earnest app to all the District Boards, municipalities, as well as village panchayets to actively co-operate with Government and the Red

Red Cross Organisation in this most useful work. No doubt, the sum-otal of these small sums will be fairly large. In the case of the village panchayets, we asking for one rupee per annum. There are 10 to 12 thousand village panchayets in the State and when all of them subscribe at one rupee each, it will amount to about Rs12,000 and what a lot of useful work for the relief of suffering in the State could be done with that amount supplemented with contributions from municipalities and district boards. A scheme has been drawn up and a central organisation will be set up; it is under contemplation to appoint a suitable person to be in charge of the central organisation and initiate all these schemes for the benefit of the entire State. The Government will, of course, bear their share of the cost. But, as I said, the co-operation of the public and of all our local bodies is very necessary to carry out the scheme for the full benefit of the State.

Mr.H.Siddaiya: Why not the District Health Officer undertake such schemes and work out in the District of Shimoga where he has got plenty of leisure?

Mr.S.P.Rajagopalachari:- When this scheme comes into force, all the local Health Officers as well as the Sanitary officials will have to take part in it. But the general point is the individual effort by one Health Officer in a district is not sufficient to solve the problem. We want a broad central organisation to initiate measures and keep control over the entire working in the State. They want funds for all these purposes and it is to finance them that this suggestion has been made that the local bodies might contribute a very small sum which, if all the bodies do pay, will amount to a very large sum and from it the cost of an organisation with branches in all parts of the State can be met
